PROFESSIONAL SUMMARY

Front-End Developer with 4+ years of experience building and maintaining production web applications with React.js, Next.js (App Router, SSR/SSG), and TypeScript. Comfortable owning front-end architecture, reusable component systems, and client-side state management with Redux Toolkit, Zustand, and React Query. Experienced in real-time features with WebSocket, Socket.IO, and SignalR. Uses GitHub Copilot and ChatGPT/Claude as part of a daily workflow for code generation, debugging, and code review to ship faster without sacrificing code quality. Working knowledge of Node.js/Express and PostgreSQL to collaborate effectively with back-end teams.

TECHNICAL SKILLS

- Languages: TypeScript, JavaScript (ES6+)
- Front-End: React.js, Next.js (App Router, SSR, SSG, React Server Components), React Router DOM
- State Management: Redux Toolkit, Zustand, React Query (TanStack)
- UI & Styling: Tailwind CSS, shadcn/ui, MUI, Responsive & Accessible (a11y) Design
- Real-Time: WebSocket, Socket.IO, SignalR
- Testing & Quality: Vitest, Jest, React Testing Library, Storybook
- Tooling & Workflow: ESLint, Prettier, Husky, Git
- DevOps: Docker, Turborepo, CI/CD (GitHub Actions)
- Back-End (Working Knowledge): Node.js, Express.js, RESTful API Design, PostgreSQL
- AI-Assisted Development: GitHub Copilot, ChatGPT/Claude for code generation, debugging, and code review
- Practices: System Design, Performance Optimization, Core Web Vitals, Agile/Scrum, Code Review

PROFESSIONAL EXPERIENCE

Front-End Developer (React.js, Next.js)

Mar 2024 – Feb 2026

Kahkeshan Noor | Tehran, Iran

- Implemented real-time features using WebSocket to deliver dynamic, interactive user experiences.
- Built and maintained a reusable component library to keep UI consistent across multiple product areas.
- Managed client-side state and data fetching with Redux Toolkit and React Query.
- Took part in code reviews and technical discussions to raise overall code quality.
- Contributed to CI/CD process improvements and standardized Git-based development workflows.

Front-End Developer (React.js, Next.js)

Mar 2022 – Feb 2024

Kahkeshan Dana | Tehran, Iran

- Developed and maintained front-end applications with React.js, Next.js, and TypeScript in a production environment.
- Improved front-end architecture and codebase structure to increase maintainability and long-term scalability.
- Worked closely with back-end developers and product managers to integrate front-end features with APIs and business requirements.
- Translated UI/UX designs into responsive, accessible front-end interfaces.

FREELANCE EXPERIENCE

Front-End Developer (Freelance)

atropine.ir

- Developed the front-end of the website using React.js, translating designs into responsive, reusable UI components.

PERSONAL PROJECTS

Persian RTL E-Commerce Storefront (لباسینو)

- Building a Persian RTL storefront with Next.js, TypeScript, Tailwind CSS, and shadcn/ui, focused on clean component architecture and reusable, props-driven UI patterns.
- Using Suspense-based streaming to improve perceived performance and page-load experience.

Interactive Canvas/SVG Visualizations

- Built browser-based animations (e.g., solar system and neural network visualizations) using Canvas and SVG, later adapted into short-form video content.

EDUCATION

Bachelor's Degree in Civil Engineering

2017 – 2021

Islamic Azad University | Tehran, Iran

ADDITIONAL INFORMATION

- Languages: Persian (Native), English (Intermediate, actively improving)
- Military Service: Completed
